

REMARKS

Please replace the new "Sequence Listing" pages 1-15, submitted herewith for the Sequence Listing submitted with the application as filed. Please renumber subsequent pages of the specification accordingly.

Applicant has filed a paper copy of the new sequence listing to correct errors identified in the "Raw Sequence Listing Error Summary" dated May 24, 2002. Moreover, the new sequence listing adds SEQ ID NOs. 28-40, the sequences for which were included in the specification as filed, but were not identified by SEQ ID NO as required by 37 C.F.R. § 1.821-1.825. The specification has also been amended to identify these sequences by SEQ ID NO. This amendment (i.e. adding SEQ ID NOs.), therefore, does not add new matter.

The sequence listing, accordingly, is in conformance with 37 C.F.R. § 1.821-1.825, and contains no new matter. Additionally, applicant has also submitted the attached electronic copy of the new sequence listing as required by 37 C.F.R. § 1.825(b). The enclosed information in computer readable form is identical to the written sequence listing submitted in accordance with 37 C.F.R. § 1.825(b).
